

	238 Columns - V1.0.1		329 Columns - v1.1.0	Data Type	Equivalent ISD Global Hourly elements
	KEY for new/replaced elements:				
	YELLOW: Column name changes for some or all files (Note: 'remarks' is now 'REM' in all files)				
	GREEN: New field for by-station POR files				
	PURPLE: New fields for by-year station files				
	ORANGE: Element/column names are not in version 1.1.0 ; they have been replaced with sky_cover_layer elements				
	BLUE: New sky cover elements (ISD code groups GA, GD, GF, CIG) and 5-minute and 15-minute precipitation elements.
